Subject: Review approach?

Hi Tiffany,

Thanks so much for chatting earlier. I did have a chance to check in with Dan (but haven't had a chance to check in with Angela, who has been booked solid today).

Dan, Angela and I will be meeting tomorrow to go over the higher-level policy edits to the website text. We can send those along probably by COB tomorrow or Friday for Larry to look over.

As for the technical/more nitty gritty programmatic language review, we do think it would be helpful to also tap one or two ECY staff – when we send our policy edits to you hopefully tomorrow, we can also send one or two names of appropriate staff experts as well as a few specific questions that would be helpful to focus a review, and you and Larry can see if you think that seems reasonable? We can also see if they do a very expedited review, and we can meet to go through their review comments and try to wrap up this process within 2 weeks.

How does that sound?

Lisa
